No. 142.—The following rules made by the Governor in Council by virtue of the powers conferred by section 37 of the Indian Factories Act, 1911 (XII of 1911) are hereby notified for general information:—

RULES.

[*General*]

1. These rules and orders may be cited as "The Madras Factories Rules, 1912."

2. In these rules and orders—

(a) words and expressions which are defined in the Indian Factories Act, 1911, have the same meanings as in the said Act.

(b) "the Act" means the said Act.

(c) "Inspector" means an inspector appointed under section 8, sub-section (1), of the Act.

Proviso (1).—When in any area the Local Government has, by notification in the local official Gazette, under sub-section (5) of section 4, declared that the District Magistrate or an additional inspector shall exercise all the powers of an inspector under the Act, the word "Inspector" shall be held to include such District Magistrate or additional inspector.

Proviso (2).—When in any area the Local Government has declared, as aforesaid, that a District Magistrate or additional inspector shall exercise certain powers of an inspector, the word "Inspector" shall be held to include such District Magistrate or additional inspector, only in so far as any one or more of these rules are specified in the notification.

[*Section* 37 (1) *and* 37 (2) (*a*) *and* (*b*).]

Register of factories.

3. The Inspector shall keep a Register of Factories in Form A attached to these rules and shall furnish a copy thereof to the District Magistrate on the 1st February of each year. He shall also intimate to the District Magistrate at the time they are made all changes in the Register which are made in accordance with the two next following rules.

Directions for keeping register of factories.

4. (1) When the Inspector receives notice under section 33 of the Act of a factory being occupied, he shall, if he has not already done so, include such factory in his register.

(2) When the Inspector has reason to believe that any premises situated within the local limits for which he is appointed and not already registered as a factory, ought to be included in his register, he shall send to the occupier of the premises a notice intimating his intention of placing such premises on his register of factories.

(3) Any person served with a notice under clause (2) above may, within fifteen days of the receipt of such notice, forward to the Inspector a statement setting forth his objections to the registration of his premises as a factory. The Inspector shall consider and dispose of such objections, after making such enquiry as he may deem necessary, and shall make up his register of factories accordingly.

Notice when factory ceases to be occupied.

5. When any premises cease to be occupied as a factory, the occupier may give notice of the fact to the Inspector, who shall, if satisfied that the Act is no longer applicable to such premises, remove them from his register of factories. The Inspector may without such notice of his own motion at any time remove any factory from his register if satisfied that it is no longer used as such.

Provided that seasonal factories shall not be removed from the register if there is a probability of their again starting work within a reasonable time.

Inspection.

6. The Inspector shall be primarily responsible for the administration of the Act within the area for which he is appointed. He shall inspect every factory, other than a seasonal factory, within that area at least once in every half year and every seasonal factory within that area at least once during each season of work. He shall also make such further inspections as may appear to be necessary to him, or to the authority to whom he is subordinate, in order that he may satisfy himself that the provisions of the Act and of these rules are duly observed.

7. The Inspector shall at each inspection of a factory satisfy himself that the provisions made in the Act and rules to secure the health and safety of the operatives are observed; that the children employed in the factory have been duly certified and the register of children properly maintained; that the hours of employment of women and children and of persons working in shifts are properly recorded; that the periodical stoppages of work and the holidays provided by the Act are granted, and that the limits of hours of work laid down therein are not exceeded; and that the abstract and notice prescribed by section 35 of the Act are duly maintained and affixed. He shall further enquire into the cause of all accidents which have taken place since the last inspection. Finally, he shall note how far defects pointed out at previous inspections have been removed and how far orders previously issued have been complied with. Any defects which have come to light at the present inspection as well as any orders passed by him under the Act shall then be recorded. An extract from such record containing the orders of the Inspector and such remarks on defects found to exist as the Inspector may wish to bring to the Manager's notice shall be sent to the Manager, and a copy of the said extract shall be sent to the District Magistrate.

Proviso.—When in any area the District Magistrate or an additional inspector exercises all or any of the powers of an inspector, a copy of the orders and remarks aforesaid shall be sent by the District Magistrate to the Inspector appointed under section 4, sub-section (1) of the Act.

4. The Inspector shall keep a file of the records of his inspections arranged in monthly bundles and shall submit to the authority to whom he is subordinate for the purposes of this Act, on the tenth day of each month, a diary in Form B attached to these rules, showing the work done in the preceding month. A copy of the said diary shall be retained by the Inspector.

[*Section* 37 (2) (*c*) *and* (*d*).]

5. No fee shall be charged for such examination or for the grant of a certificate in pursuance thereof.

Duties of Certifying Surgeon or person authorised to exercise his functions.

(2) The Certifying Surgeon or person authorised as aforesaid shall fix such place and such times as may be proper for the attendance of persons wishing to obtain certificates of age and physical fitness. Notice of the place and the times thus fixed shall be given to the Managers of factories within the local limits for which he is appointed.

10. (1) Every Certifying Surgeon shall keep a bound book containing forms in foil and counterfoil as in Form C attached to these rules. The forms shall be numbered consecutively, and shall be printed on cloth-backed paper.

(2) Every certificate granted under section 7 of the Act to a person desirous of being employed in a factory shall be prepared by filling up the foil and counterfoil, on which shall also be impressed the left thumb mark of the person in whose name the certificate is granted.

(3) The Certifying Surgeon shall, when satisfied as to the correctness of the entries made therein, sign the foil and initial the counterfoil, and shall deliver the foil to the person in whose name the certificate is granted. The foil so delivered shall be the certificate granted under section 7 of the Act.

(4) If the Certifying Surgeon refuses to grant to any person a certificate under this rule, no fresh application for a certificate shall be made on behalf of such person until a period of three months has elapsed, unless the Certifying Surgeon otherwise gives permission in writing at the time of refusing to grant the certificate.

(5) In order to facilitate identification of persons applying for duplicate certificates (see Rule 12), Certifying Surgeons shall maintain an alphabetical register of persons to whom certificates are granted. This register will show the name of the person, the number of the certificate and the number (or other distinguishing mark) of the book containing it.

11. Every person authorised under section 8 of the Act to exercise provisionally the functions of a Certifying Surgeon shall grant certificates in the manner provided for in the last foregoing rule. The word "Provisional" shall however be printed or stamped in red ink at the top of each foil and counterfoil.

Grant of provisional certificates under section 8.

12. (1) When a person, to whom a certificate under section 7 of the Act has been granted, loses such certificate, he may apply to the Certifying Surgeon for a copy of the entry in the counterfoil thereof. The word "Duplicate" shall be clearly written in red ink across such certificate and initialled by the Certifying Surgeon. The counterfoil in the bound book of forms shall be similarly marked "Duplicate" and initialled.

Grant of duplicate certificates.

(2) For every copy of a certificate granted under clause (1) of this rule, a fee of one rupee shall be charged, which shall be credited to Government. The Certifying Surgeon shall maintain a register in Form D of all fees paid for the issue of copies of certificates, and shall initial each entry made therein.

(3) No second certificate under section 7 of the Act shall be granted to any person otherwise than in accordance with the provisions of this rule.

13. (1) The Certifying Surgeon shall visit every factory within the local limits for which he is appointed at least once a quarter and shall give previous notice of his visits. At each of these visits the Manager shall produce before him at such time as the Certifying Surgeon may fix all children employed in the factory, whether actually at work or not, who are not in possession of certificates granted under section 7 of the Act.

Provided that children employed solely in the places mentioned in section 3, sub-section (2) of the Act need not be produced before him.

(2) The Certifying Surgeon shall personally examine every child, who is in possession of a "Provisional" certificate granted under section 8, and shall if satisfied as to the correctness of the "Provisional" certificate countersign the same and return it to its owner.

(3) If on such examination, the Certifying Surgeon is of opinion that the person in possession of a "Provisional" certificate granted under section 8, is under the age of nine years or is not fit for employment in a factory, he shall retain the certificate, write on it the word "Cancelled" and sign the same, and shall secure the certificate with such remarks if any, as he may offer to the person who issued it.

(2) The local Government may by special order exempt any class of factories or parts thereof from the provisions of this rule, on the ground that the said provisions are not necessary to satisfy the requirements of clause (*e*) of section 2 of the Act as to cleanliness, or are, by reason of special circumstances, inapplicable.

No. 315.—The following resolution and notification of the Government of India are republished.—

DEPARTMENT OF REVENUE AND AGRICULTURE.

Forests.

Simla, the 22nd June 1912.

No. 10-F.—76-8.

RESOLUTION—In the Circular from this Department No. 24—F.-196-8, dated the 5th August 1910, Local Governments were consulted as to the advisability of instituting, at the Forest Research Institute and College, Dehra Dun, an entirely separate course of training for candidates for direct appointment to the Provincial Forest Service.

2. Local Governments were unanimous in considering that a separate course for Provincial Service candidates is essential, and the Government of India have now obtained the sanction of the Secretary of State to the initiation of such a course with effect from November 1912.

3. The course of instruction, which will be of two years' duration, and the selection and appointment of candidates will be conducted under the following arrangements:—

The Secretary of State has drawn attention to the principle now accepted as the basis of the recruitment of the Imperial Forest Service, that all candidates in addition to a good general education must have passed with honours in a public examination for a degree in some branch of natural science held by a university in England. It has been found that, without a preliminary training in science, probationers are not able to complete an advanced forest course within a limited time, and his Lordship considers it will be found essential, if English experience is at all applicable, that every probationer should have a good general education and a substantial knowledge of one or more branches of natural science. The Government of India desire that this point should be borne in mind in connection with the selection of candidates.

Considering the class of officials required for forest work and the various degrees of education prevailing in the different provinces, the Government of India do not think it necessary or advisable to prescribe for candidates any of the established educational qualifications, and they accordingly leave to Local Governments full authority to select candidates in such a manner as they think best, subject to the condition that only candidates who are in all respects qualified by previous education, more especially in English and Mathematics, to profitably follow and profit by the course of instruction, should be nominated. Information regarding the degree of qualifications required in English and Mathematics will be found in the new rules for the course prescribed for the Provincial Forest Service, which are being circulated separately to Local Governments. The President of the Forest Research Institute and College will be empowered to subject any candidate about whom he has a doubt to a special examination in these subjects. He will also have authority, either as a result of such an examination or at any time during the course, to remove from the College any candidate whom he considers unable to follow the course prescribed. A physical test will be undergone by candidates on their arrival at Dehra Dun, followed by an examination conducted by a Medical Board. Local Governments will decide the extent of practical training probationers should go through prior to joining the College and the allowance to be given to them during this training. It is left to Local Governments to award stipends or scholarships to probationary students at the College in such manner as they consider suitable, subject to the condition that the amount granted shall not exceed Rs. 2,400 for the two years' course. The age of the candidates is also left to the discretion of Local Governments, subject to the proviso that without the special orders of the Local Government no candidates of less than 18 or more than 23 years of age should be sent for instruction. Similarly, it is left to each Local Government to decide as to the length of the period of probation to be required from candidates after the completion of the course and before appointment to the Provincial Service, provided that no such officer may be appointed substantively to the Provincial Service until there is an actual vacancy in that service for him, but candidates who have completed the course should, while on probationary service, be classed as (as has hitherto been sometimes the case) as Rangers but as Probationary Extra Assistant Conservators, on the scale of pay sanctioned in Circular Resolution No. 31-F.-168—4, dated 9th October 1908. Any candidate who is not appointed permanently to Government service before attaining the age of 23 may be allowed to count, as service towards pension, any period of training or probation served after attaining that age. The number of candidates to be sent for instruction will be fixed in each year for each Local Government and, so long as the number of candidates prescribed is not exceeded, Local Governments will be at liberty to send either candidates for direct appointment or Rangers. Full discretion is left to Local Governments as regards the age at which Rangers may be sent, but they should be educationally qualified to follow and profit by the course of instruction and, as in the case of direct candidates, the President will have power to examine and remove any Rangers whom he considers unfitted to follow the course.

PUBLIC WORKS DEPARTMENT.

No. 433-458-E.

No. 25.—The following is published for general information :—

RESOLUTION—By the Government of India, Public Works Department.

In the Resolution of the Government of India in the Public Works Department Nos 675—684 E, dated 24th April 1905, the Governor General in Council announced that His Majesty's Secretary of State for India had sanctioned the introduction of a scheme for the re-organisation of the engineer establishment of the Public Works Department. The main features of the scheme were the substitution of time scales of pay for the graded system of promotion formerly in force, and the complete separation of the Imperial and Provincial Engineer establishments by placing them in two distinct cadres with different rates of promotion to executive rank. It was hoped that the advantages which were held out in the matter of pay would have induced the majority of the Provincial engineers to accept the new conditions of service, but this hope has not been fulfilled. Numerous memorials from the officers themselves, and the result of enquiries made from local Governments and Administrations, shew that the members of the Provincial Engineer service attach much greater importance to being borne on a combined list with their Imperial confreres than was supposed to be the case, and that for this and other reasons it is desirable, so far as the Public Works Department is concerned, to abandon the attempt to carry out fully the recommendation of the Public Service Commission for a separate Provincial service. It was also represented that the scale of pay fixed for the Provincial engineers, although an improvement on the rates obtaining under the old graded system of promotion, was inadequate. In view of these representations the Governor General in Council has had under consideration the possibility of devising a scheme which would satisfy the reasonable demands of the memorialists, and at the same time secure a high standard of efficiency by attaching to the service the best material available in the country.

2. The Governor General in Council now desires to announce that His Majesty's Secretary of State for India has sanctioned the introduction, with effect from the 1st April 1911, of the following revised scheme, which provides for the abolition of the dual cadre, the equalization of the period for promotion to executive rank in the two services, and the increase of the pay of the Provincial officer to

an amount which shall bear, as nearly as possible, the same proportion to the pay of the Imperial officer, as that which existed prior to the introduction of the new scales in 1908. The rates of pay now sanctioned for members of the Provincial Engineer service are as follows :

		Maximum pay Rs.

" "	3rd "	275
" "	4th "	300

Superintending Engineer, 3rd class	1,200
" " 2nd "	1,400
" " 1st "	1,600
Chief Engineers	Imperial rates of pay.

The time scale of pay laid down in the Resolution of the 24th April 1908 for officers of the Imperial service remains unaltered, but future entrants will attain executive rank in the 11th, instead of in the 9th year of service as at present. Thus, in both services promotion to executive rank will take place at the same period, and will be subject only to the condition that the officer concerned is considered by the local Government to be fully qualified for the charge of a division. But no officer in the executive class may draw more than the lowest pay of the class, viz., Rs. 800 a month in the case of the Imperial service, or Rs. 535 a month in the case of the Provincial service, except as a purely temporary arrangement, unless he holds a divisional charge, or a charge which in the opinion of the local Government is of equal importance. Further, an officer of the assistant class placed in charge of a division will draw, in addition to his substantive pay, the ordinary officiating allowance admissible under article 120, Civil Service Regulations, subject to a maximum of Rs. 800 in the case of the Imperial service, and of Rs. 535 in the case of the Provincial service. The alteration of the period of promotion will not however affect Imperial officers already in the service, who if qualified will be given the rank of Executive Engineer in the 9th year of service under existing rules. Similarly, any qualified Provincial officer now in the service will be given the rank of Executive Engineer in the same period irrespective of whether he is actually in charge of a division or not. Officers who were in the service on the 8th March 1908 will ordinarily resume the position in regard to seniority which they formerly occupied on the combined list, and officers appointed since that date will ordinarily take their position on the combined list from date of appointment as Assistant Engineer. Should however an officer's promotion have been retarded, the position he is to occupy on the combined list will be a matter for settlement by the local Government concerned.

2. With a view to placing all officers of the Provincial Engineer service on an equal footing, it has been decided to allow those who did not elect to come under the re-organization scheme of 1908, or who elected from a later date than that of its inception, the option of electing to come under the scale of pay introduced by that scheme from the 8th March 1908 to the 31st March 1911.

4. Subject to the modifications indicated above, which apply equally to Royal Engineers on the civil scale of pay, *vide* Public Works Department Resolution Nos. 63—92 E., dated the 18th January 1911, the rules promulgated in the Resolution of the 24th April 1908, will continue in force.

Ordered that this Resolution be forwarded to local Governments, Administrations and officers noted in the margin for information and guidance, and that it be published in the *Gazette of India* for general information.

The Governments of Madras, Bombay, Bengal, United Provinces of Agra and Oudh, Punjab, Burma, Bihar and Orissa.

DEPARTMENT OF COMMERCE AND INDUSTRY.

TELEGRAPH ESTABLISHMENT.

No. 4276-4280-133.

Simla, the 4th June, 1912.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

In the Resolution of the Government of India in the Department of Commerce and Industry, No. 813-918-115, dated the 2nd February 1910, the Superior Establishment of the Indian Telegraph Department was reorganised, a scheme of administration by circles being introduced on the lines recommended by the Telegraph Committee of 1906. The scheme included the substitution of time scales of pay for the graded system of promotion formerly in force and the introduction of a distinction between the Imperial and the Provincial Services in respect of promotion to the rank of Superintendent by the reservation for the latter service of twelve out of the thirty-four divisional charges sanctioned in that Resolution. The reservation of divisions for the Provincial Service involved the abolition of the system previously in force by which officers of that service received promotion *pari passu* with officers of the Imperial Service. It was hoped that the improvement in the rates of pay would have induced the officers of the Provincial Service to accept the new conditions, but this hope has not been fulfilled. Memorials were received from the officers themselves, from which it was clear that they attached great importance to the continuance of the previous system of equality of promotion with officers of the Imperial Service; and it was further represented that the scale of pay fixed for them, although an improvement on the rates obtaining under the old graded system of promotion, was disproportionate to the improved scale fixed for the Imperial Service and was inadequate. In view of these representations and with the desire to satisfy the reasonable requests of the memorialists the Governor General in Council formulated a revised scheme, which has now received the approval of His Majesty's Secretary of State for India.

2. The Governor General in Council is pleased to announce that in future the reservation of divisions for the Provincial Service of the Telegraph Department will be abolished, and officers of both the Imperial and Provincial Services will, provided they are fully qualified, be equally eligible for promotion to the rank of Superintendent on the occurrence of permanent vacancies in divisional charges. Further, with effect from the 1st April 1911, the following rates of pay have been sanctioned for the officers of the Provincial Service :—

		Rs.
1st year of service	.. ..	250
2nd Do ..	.. ..	275
3rd Do ..	.. ..	300
4th Do. ..	.. ..	325
5th Do ..	.. ..	350

7th Do ..	.. ..	400

17th Do ..	.. ..	745
18th Do. ..	.. ..	780
19th Do. ..	.. ..	815
20th Do. ..	.. ..	850

After completing five years' service on Rs. 850, a special increment may be granted to deserving officers who may not be promoted to administrative rank. The pay of officers rising to administrative rank will remain as at present.

3. It will be seen that there will be a rise in the rate of increment after the ninth year of service, while the maximum of the scale (omitting consideration of the special increment) will be reached in the 20th year, the conditions of service in both these respects being assimilated to those applying to Imperial officers. In order to secure uniformity of treatment in other respects, it is necessary to make certain further alterations with regard to—

(i) the maximum of pay and allowances admissible to an Assistant Superintendent officiating in charge of a division;

(ii) the maximum pay of an officer who is not declared fit to hold charge of a division; and

(iii) the maximum pay of an Assistant Superintendent who, though declared fit to hold charge of a division, is not actually holding such charge, or a charge which is recognised as of equal importance.

These alterations are explained in the following paragraph.

4. (1) Under the present system an Assistant Superintendent officiating in charge of a division draws an acting allowance of Rs. 100 a month, subject to a maximum salary of Rs. 700 in the Imperial Service (in the case of an officer of less than 8 years' service) and Rs. 650 a month in the Provincial Service. It has now been decided that the pay of the eleventh year shall be the maximum of pay and allowances admissible to an Assistant Superintendent (Imperial or Provincial) with less than 10 years' service, when officiating in charge of a division. That is to say, an Assistant Superintendent officiating in divisional charge, whose pay under the time scale is less than Rs. 800 in the case of the Imperial Service or Rs. 555 in the case of the Provincial Service, will draw an officiating

allowance of Rs. 100, subject to a maximum of Rs. 800 in the former and Rs. 536 in the latter, and provided further that the sum of pay *plus* acting allowance shall in no case exceed the pay of any permanent Superintendent of the Imperial or Provincial Service, as the case may be.

(2) The existing rules permit an officer not declared fit to hold divisional charge to proceed to Rs. 569 (the pay of the eighth year of service) in the Imperial, and Rs. 400 (the pay of the fifteenth year) in the Provincial Service. For the future an officer who is found unfit for divisional charge will not go beyond the point after which the increments in both services rise, *i.e.*, the pay of the ninth year, Rs 700 in the Imperial and Rs. 450 in the Provincial Service.

(3) In the case of an Assistant Superintendent qualified for, but not actually holding charge of, a division, or a charge which is recognised as of equal importance, the maximum pay will henceforth be that of the eleventh year for both services, *i.e.*, Rs. 800 in the Imperial and Rs. 535 in the Provincial Service.

5 These revised rates of pay are introduced with retrospective effect from the 1st April 1911; but if in any case any officer has between the 1st April 1911 and the date of this Resolution drawn, in accordance with the terms of the Resolution of 2nd February 1910, a higher total salary than would be admissible under the terms now sanctioned, no refund will be required. Further, any officers who did not elect the revised rates of pay introduced in the Resolution of the 2nd February 1910, or who elected from a later date, are given the option of electing those rates from the 19th December 1909 to the 31st March 1911, but no option is allowed to Provincial Service officers to elect or decline the revised terms now published.

ORDERED—That this Resolution be published in the *Gazette of India* for general information, and that it be communicated to the Home, Finance and Public Works Departments of the Government of India, to the Director General, Posts and Telegraphs, and to the Accountant General, Post Office and Telegraphs.

No 941.—The following rules which it is proposed to frame under clause (a) of sub-section (1) of section 250 of the Madras District Municipalities Act, 1884, are published under sub-section (1) of section 256. Any objection or suggestion which may be made in respect of these rules by any person interested therein will be considered on or after the 1st August 1912.

Rules.

No scheme for the extension of a town or for the acquisition of land for the provision of house accommodation shall be undertaken by a municipal council unless the site selected by it for such extension or acquisition has been previously approved by the District Medical and Sanitary Officer or the Sanitary Commissioner with special reference to the suitability of the soil for building construction, facilities for drainage and water-supply and other matters.

2. The site for an extension should be open to the prevailing winds. It should be elevated above surrounding lands wherever possible and should have a gravel or sandy subsoil and when such a site is not available an open site possessing a sufficient slope either from one end to the other or from the centre outwards should be selected and the site should not be liable to be flooded. The subsoil should be of as pervious a character as possible, clay being the worst and gravel the best and the subsoil water level should not rise during the rains to a height less than 6 feet from the ground level.

3. Roads and streets shall be marked out on the site and shall as far as possible run in straight lines crossing one another at right angles. The main roads exclusive of lateral drains shall be not less than 40' in width and the secondary roads not less than 30'. In the case of long roads, cross roads shall be provided at intervals of from 1,000 to 1,500 feet so as to secure perflation of air and easy exit.

4. All roads and streets shall be metalled throughout their entire width from side to side and not merely the centre of the road way.

5. Conservancy lanes 10' in width exclusive of lateral drains shall be formed along the backs of houses to enable conservancy carts and scavengers to enter for the purpose of cleansing backyards and for the laying of drainage pipes in the event of the town being provided with underground drainage.

6. Streets shall be provided on both sides with open and impervious U-shaped drains without joints to carry off storm water. No such drain shall on any account be rectangular or shall be less than 2½' × 2' in main streets, 2' × 1½' in secondary streets and 1½' × 1' in conservancy lanes, or shall be constructed so close to the outer limits of houses facing the street as to allow water from the eaves to fall on to the road surface between the side drains. If the drains are constructed of Cuddapah slabs, their joints shall be well cemented; in other cases their sides shall be plastered with cement sloping to the bottom.

7. The formation of roads, streets and drains must form part of the scheme for laying out the site and should ordinarily be put in hand simultaneously with the execution of the scheme instead of being deferred to a future date.

8. In all cases where the width of the main streets exceeds 30' municipal councils shall, as far as possible, plant and maintain suitable avenue trees on both sides of the street.

9. Suitable places for the construction of public latrines shall be selected and set apart for the purpose.

10. Where there is no pipe water-supply, suitable sites shall be selected for the sinking of wells.

11. The land acquired for the extension of a town shall be plotted into house-sites, the size of which shall ordinarily be not less than 45' × 60'. The sites so laid out shall be sold in public auction subject to such conditions and penalties for failure to comply with them as may be stated in the sale-deed.

12. Purchasers of building sites shall, by a stipulation in the sale-deed which shall also be embodied as a condition in the notice of sale published by the council, be required to complete the construction of their houses within a period of one year from the date of purchase on pain of forfeiting their right to the property without any compensation, if they fail to do so, provided that the municipal council may, for special reasons, grant an extension of time.

13. No house-sites shall be built upon unless and until the purchaser submits a plan of the building to the municipal council and furnishes the particulars required by section 180 of the Madras District Municipalities Act, 1884, including—

(a) a statement showing the dimensions of the building and the levels at which it is intended to lay the foundation and lowest floor; and

(b) a statement showing the means of ventilation and drainage and the privies which it is intended to provide.

14. No sub-division of house-sites or construction of more than one house on each site shall be permitted.

15. Houses shall be constructed with frontage facing the roads and streets.

16. The construction of houses lying back to back shall be strictly prohibited.

17. No house or outhouse shall under any circumstances be allowed to be constructed with thatch.

18. The main walls of the house shall not be less than 10' high. The eaves must not be less than 8' above the plinth.

19. The provision for ventilation shall comprise suitable windows in each room.

20. No house shall be built on a basement of less than 2' from the ground and such basement shall be of masonry or some rat-proof material.

21. All backyards of houses shall be provided with a gateway so as to give access to municipal officers for the purpose of inspection and to the private scavenging staff.

22. All backyards of houses shall be provided with a suitable impervious bathing platform for the inmates of the house. Each house shall be provided with a latrine to be made to a standard pattern supplied by the municipal office.

23. All sullage water from a house and its backyard shall be drained into the municipal drain in the conservancy lane and not into the drain in front of the house which is provided to carry off storm water.

24. All cattle yards shall be flagged and properly drained.

25. All houses shall be enclosed by durable compound walls or fences of such description as the council may prescribe.

26. Except in so far as may be necessary for the excavation of foundations or walls or the levelling or sloping of the ground, no purchaser of a house-site shall remove earth from the site for building or any other purpose so as to leave hollows in it.

27. Rules 13 to 26 *supra* should also be embodied as conditions of sale in the notice of sale published by the council and in the sale-deed before possession of a site is given. In case of breach of any of these conditions the council shall call upon the owner of the plot to make the necessary alterations or provision within a period of three months in default of which the municipal council shall be authorized to make them itself and recover the cost from the owner.

28. No relaxation of rules 14 to 26 shall be permitted without the prior approval of the Sanitary Commissioner which will be given only on special grounds.

No. 942.—In exercise of the power conferred by sub-section (1) of section 4 A of the Madras District Municipalities Act, 1884, and in modification of notification No. 22 published at page 10 of Part I-A of the *Fort St. George Gazette*, dated 11th November 1885, the Governor in Council hereby declares his intention to extend the northern limits of the Nellore municipality by adopting the following boundaries. Any objection which may be made in respect of this extension by any person interested in the matter should be submitted in writing to Government within six weeks from the date of publication of this notification in the *Nellore district gazette*.

Revised Statement of Boundaries.

(3) The Banganapalle State.

2. Tree-tapping licenses shall be issued on the application—

(a) of licensed toddy shopkeepers in areas in which the toddy shops are sold by auction or licensed separately;

(b) of persons having the exclusive privilege of manufacture and supply of consumed toddy arrack as foreign liquor;

(*e*) of persons having the exclusive privilege of manufacture and vend of country spirits in British Cochin;

(*d*) of tappers on their own application in the South Canara district, provided the application for license is accompanied by an application for a permit for the transport of the toddy drawn to some particular shop and that the latter application is countersigned or drawn to some particular shop and that the toddy is to be taken; acknowledged to be correct by the shopkeeper to whose shop the toddy is to be taken;

(*e*) of tree owners generally, and of sweet-toddy tappers in the Godavari district, and in the Narasapur, Bhimavaram, Tanuku, Ellore and Yernagudem taluks of the Kistna district, for not more than five trees in the case of tree owners and three trees in the case of sweet toddy tappers, for the drawing of toddy required for domestic consumption, but not for sale; and

(*f*) of toddy shopkeepers or renters in the Mysore territory and in the Banganapalle State desiring to obtain toddy from trees growing in British territory.

In cases (*a*), (*b*), (*c*), (*e*) and (*f*) the licenses may be issued in the name of the applicant himself or of his nominee, and in case (*d*) in the name of the applicant only.

3. Persons wishing to apply for the grant of tree-tapping licenses must first pay the fees (or the first instalment thereof, as the case may be) due on account of the trees which they desire to tap, into a Government treasury, which may be either the District treasury, a Taluk treasury or a Salt treasury. Divisional officers may also empower heads of villages to receive payments on account of tree-tax and to grant receipts therefor.

4. (1) Applications for the grant of tree-tapping licenses must be made in the prescribed form to the Inspector, Salt, Abkári and Customs Department, in charge of the circle in which the trees are situated. Forms may be obtained from the Inspectors of Salt, Abkari and Customs Department, and from all Tahsildars and Deputy Tahsildars and will be supplied free of charge. Applications put in by shopkeepers and tappers need not be stamped; those put in by other persons must bear a court-fee stamp of one anna. In any case, if the fees have been paid into a treasury, the application must contain a certificate of payment from the treasury officer; if payment has been made to a village head the receipt must accompany the application. Mysore renters and shopkeepers applying for trees in British territory should pay the tree-tax into the Mysore Amildar's treasury and should present before the British Tahsildar or Deputy Tahsildar concerned along with the application in form T.T. 4, the receipt with the Amildar's certificate at the foot to the effect that the applicant was persons entitled to take out a tree-tapping license in Mysore. The tree-tax should be calculated at the higher rate if the rates are not the same on the two sides of the frontier.

(2) Applications for tree-tapping licenses in the South Canara district should be countersigned by the owner of the trees intended to be marked in token of his consent.

5. Toddy shopkeepers in tracts adjoining the Mysore territory will also be allowed to tap trees in Mysore for the supply of toddy to their shops on payment of the whole of the tree-tax in one instalment into British treasuries and subject to such restrictions regarding permits, etc., as may be prescribed in this behalf. The rate of tree-tax to be paid in such cases will invariably be the higher rate in force if the rate is not the same on the two sides of the frontier.

The British and Mysore Governments reserve to themselves the right to impose, in addition to the tree-tax, a rent for the use of trees belonging to them, the same when imposed being payable by British and Mysore licensees alike. The arrangements agreed to by the Madras and the Mysore Governments with regard to the issue of licenses for tapping trees in either territory on the application of farmers or shopkeepers in the other do not prevent the reservation of trees in any specified area in the Madras Presidency or in Mysore with a view to afford rest thereto or for other sufficient reason and the mere payment of tree-tax into a British or Mysore treasury does not entitle an applicant to tapping licenses for trees so reserved.

6. Toddy shopkeepers in British territory adjoining the Banganapalle State will be allowed to tap trees in the State on payment of tree-tax, the rate being the same as in the Kurnool district. Similarly those in the Banganapalle State will be allowed to tap trees in the adjoining British territory.

7. Persons applying for the issue of licenses will be responsible to Government for all sums payable as tree-tax on account of the trees licensed to be tapped.

8. (1) On receipt of an application, the Inspector, unless he sees special cause to the contrary, will at once take steps for the marking of the trees by an officer superior in rank to a petty officer and for the issue of the license. Applicants for trees shall point out to the marking officer, when required by the latter to do so, the trees applied for by them. Should they fail to do so after reasonable notice, the fees paid by them shall be liable to be forfeited at the Collector's discretion.

(2) In the Godavari district and in the Narasapur, Bhimavaram, Tanuku, Ellore and Yernagudem taluks of the Kistna district, trees intended for the drawing of fermented toddy and those for the drawing of sweet toddy shall, as far as possible, be in separate topes or blocks.

9. Collectors may, from time to time, prescribe the maximum number of trees to be entered in an original application. They may also direct that the trees situated in one village only shall be included in an application.

10. No trees shall be tapped, nor shall toddy be drawn from any toddy tree, nor shall any pot be attached to any toddy tree, until the tree has been marked by the proper officer.

11. For palmyra and date trees in the Presidency and for Dudeul (*Areca Wightii*) trees in South Canara, tree-tapping licenses shall be annual, that is, in force from 1st October or any subsequent date to the 30th September immediately following, and for cocoanut and sago trees they shall be half-yearly, that is, in force from 1st October or any subsequent date to the 31st March immediately following, and from 1st April or any subsequent date to the 30th September immediately following, except in the case of the trees having been illicitly tapped, when the full tree-tax may be levied.

No. 17.—In virtue of the power delegated to him in Government Notification No. 485, dated 13th July 1886, the Commissioner of Salt, Abkari and Separate Revenue hereby directs that the following rules be substituted for rules 24 and 25 of the Intoxicating Drugs Rules prescribed in Government Notification No. 236, dated 17th May 1901 :—

"24. The officer in charge of the Storehouse will then issue a permit for the transport of the drug purchased and enter therein the net and gross weight of each package, its distinguishing marks and the period of currency of the permit, taking care to allow reasonable but not excessive time for the consignment to reach its destination. He will at once intimate by post card the fact of the issue of the permit to the Collector and to the Inspector of the Salt, Abkari and Customs Department concerned, and despatch by post to the Sub-Inspector of the range in which the depot or shop is situated a letter of advice informing him of the quantity of intoxicating drugs removed of each kind and the date on which the permit will expire. The latter officer will without unnecessary delay proceed to verify the consignments.

"25. The permit shall accompany the consignment, and while the latter is in transit shall be at once produced for inspection on the demand of any Abkari, Land Revenue or Police officer. On arrival at its destination the consignment must be kept with seals unbroken until verified by the Sub-Inspector of the range in which the shop or depot is situated. The latter, if he finds cause for suspicion, will detain the consignment and report the matter without delay to the Inspector for orders. If not, he will verify the quantity of drugs entered in the permit, enter the quantity received with his own hand in the account book maintained in the depot or shop and affix his signature thereto and forward the letter of advice with a certificate of verification on the back to the Inspector to be filed in his office."

SALT, ABKARI AND CUSTOMS DEPARTMENT

NOTIFICATION.

No. 16, dated 8th July 1912

NOTICE OF SALE OF ABKARI PRIVILEGES

Notice is hereby given that the number of farms and independent shops sup-noted for the sale of liquor during the twelve months beginning 1st October 1912 and ending 30th September 1913 and the local limits appointed for them will be notified by Collectors in their District Gazettes, and that the privilege of sale therein will be put up to public auction on the dates, at the places and by the officers to be notified by Collectors subject to the conditions hereinafter set forth

Conditions of Auction Sale.

II. The districts in which independent toddy shops, arrack farms and arrack and toddy farms, respectively, will be sold are specified below :—

Independent toddy shops.	Arrack farms.	Arrack and toddy farms.
1	2	3
Throughout the Presidency including the Ramnaupalli State and excluding the Nilgiri district and certain areas in the Malabar district.	Cochin Town and the Attapadi valley	Seventeen outlying pattoms of British Cochin.

A separate notification will be issued regarding operations under the tree-tax system. Collectors will issue others regarding the tracts where special systems are in force.

III. A deposit must be made by each bidder previous to bidding and will be received by the selling officer on the day of sale. A deposit of Rs. 50 will ordinarily be required from any person wishing to bid for any important shop or any large number of shops. This will be reduced to Rs. 20 in the case of bidders for not more than two or three shops of an aggregate monthly value of Rs. 50 or less and to Rs. 5 in the case of bidders for single small shops. In the case of farms Rs. 100 will be the ordinary deposit. This will be reduced to Rs. 50 in the case of bidders for farms of an aggregate monthly rental of not more than Rs. 100 and to Rs. 10 in the case of bidders for single small farms. In the Kurnool district, the selling officer may, where he finds it necessary, require a deposit of Rs. 10 only from bidders for toddy shops. In the South Canara district, the selling officers may at their discretion reduce the deposit to Re. 2 for shops whose average monthly rental does not exceed Rs. 7.

IV. The shops or farms will be put up to auction in the order in which they are notified, unless the selling officer sees reason to change that order. Upset prices will be fixed at the discretion of the Collectors. The reserve price placed by Government on the shops or farms will not be published, but the average of the previous five years' rentals will be notified by the Collectors, wherever possible, for the information of bidders.

V. No person will be allowed to bid for another unless he holds a power-of-attorney from him.

VI. The officer conducting the sale may, at his discretion, refuse to accept the bid of any person on the ground that he has been convicted by a Criminal Court or has previously been guilty of such a breach of the conditions of a license or of a contract under the Abkari Opium Act, as to render him undesirable as a holder of a license or on the ground that he is insolvent or to prevent arrangements to the detriment of Government interests or for any other valid reason. He may also refuse any bid which

he may consider to be purely speculative, after recording his reasons for doing so. Village officers will not be allowed to bid for, or to have any direct interest in, shops for the sale of intoxicants.

VII. The shops and farms will be knocked down to the highest bidder, but the sale will be subject to formal confirmation of the Collector, who shall be at liberty to accept or reject any bid at his discretion. Such formal confirmation will be tantamount to an acceptance of the bid, unless revised by the Board of Revenue for special reasons, and will be necessary whether the sale be held by the Collector himself or by any officer appointed by him.

VIII. In case of dispute the selling officer's decision shall be final. If for any reason the highest bid is rejected, the next highest shall be taken or the shop or farm re-sold at his discretion.

IX. At the close of each day's sale, the deposits made by the unsuccessful bidders will be returned to them. As the auction proceeds, each person whose bid is accepted shall at once, if so required by the selling officer, or otherwise at the close of the day's sale, make a further deposit * of half a month's rent (in addition to the deposit made under clause III) for each shop or farm unless the initial deposit equals or exceeds two months' rent. Should he fail to do so, the deposit made by him under clause III will be forfeited and the farm or shop will be put up again immediately by the selling officer on the above conditions or otherwise disposed of by the Collector and the defaulter will be debarred from bidding again for the same or for any other farm or shop.

X. Persons to whom farms and shops have been knocked down and who have made deposits as provided in clauses III and IX shall also deposit * such further sum as with the former deposits will make up two months' rent (to be paid within ten days from the date of communication of the Collector's acceptance of the bid) and shall without unnecessary delay execute the necessary engagements and take out licenses on the conditions hereinafter set forth. In the case of the purchaser's death after signing the agreement, it will be binding on his heirs and assigns. Should the initial deposit exceed the sum required to be deposited under this clause, the excess will be refunded unless the purchaser is required to deposit twice that sum under clause XI *infra*.

XI. If on enquiry subsequent to sale the purchaser shall be found to be of doubtful solvency, he may be required either to deposit twice the sum prescribed in clause X *supra*, or to get a surety or sureties to execute a security bond for the due payment of all moneys that may become due by him under the terms of the contract. The bond shall be stamped (article 34, schedule 1, Act II of 1899) and registered at the expense of the purchaser if the amount secured exceeds Rs. 1,000.

XII. On the failure of any person to make deposit under clause X or to comply with the requisition under clause XI *supra* or to execute engagements and take out licenses as aforesaid the deposits already made may be forfeited and the shop or farm re-sold under the orders of the Divisional Officer on the dates notified by the Collector or otherwise disposed of by the latter officer.

XIII. Re-sales effected under clause XII will be at the risk of the defaulting bidder, who will forfeit all gain, and, in the event of a loss, will be required to make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case the forfeited deposits will be deducted from the loss arising from the re-sale, and the remainder, if any, will be recoverable from the defaulter in the same manner as if it were an arrear of Land Revenue. Should, however, the forfeited deposits be greater than the loss by re-sale, the whole of such deposits will be credited to Government. The defaulting bidder will be similarly liable if the privilege is disposed of otherwise than by re-sale and such disposal results in loss to Government as compared with original sale.

XIV. The purchaser of the privilege is liable to the penalties prescribed for breaches of the conditions set forth below, though a formal license may not have been issued to him.

XV. The deposit referred to in clause X or clause XI, as the case may be, will be taken as security for the due performance of the conditions of the license. If the Tahsildar † and licensee so agree, it may be credited towards the last instalments of the kists payable by the latter.

The licenses issued under the above clauses will contain the following general conditions common to all abkari and opium licenses and the special conditions prescribed below.

General Conditions applicable to all Abkāri and Opium Licenses.

1. Contract suppliers of country spirits are prohibited from holding within their contract areas any interest in the retail vend of arrack or in the vend of other intoxicating liquors such as toddy, foreign liquor and beer, and from employing any person who has such interest. This prohibition does not extend to the wholesale supply of foreign liquor or of rectified spirit to licensed vendors; nor does it prevent them from holding an interest in the retail sale of country spirits in areas other than those for which they have been granted the supply contract, or from holding ganja and opium shops either within or without their contract areas. Brewers are prohibited from having any interest either direct or indirect in the retail vend of beer on the Nilgiris.

2. The limits within which sales under any abkari or opium license may be carried on will be specified by the Collector at the time of the grant of the license. The sale or possession (except subject to the rules applicable to unlicensed persons) of liquor, opium or intoxicating drugs outside those limits is prohibited.

3. Sales must be conducted in a suitable building of which the whole or part must be entirely set aside for use as a depot or shop. If there are means of communication between the depot or shop and an adjoining dwelling-house, they must be kept locked at night. In the case of arrack shops and taverns in municipalities or towns having a population of 20,000 and over, the shop premises shall have no door except into the main street; there shall be no possible means of ingress or egress in any other direction. The interior of the shop shall be sufficiently lighted by day and the shop shall not be used as a place of residence save by the vendor and his family or caretakers.

4. Except in the case when two or more foreign liquor licenses are held by one person, sales under each license issued must be in different premises (chemists and druggists and medical practitioners excepted). The possession upon any licensed premises of any liquor, opium or intoxicating

* Deposits may be in cash or other approved security. † Includes Deputy Tahsildar in independent charge.

drug except that to which the license relates, or of any essence or substance used or capable of being used for colouring or flavouring liquor is prohibited. But intoxicating drugs made from opium or the poppy other than morphia or codeina or preparations for smoking may be prepared and sold in shops licensed for the sale of opium. In shops which are clearly of a superior character private bars may be sparingly allowed by the Collector, under a special license to be granted by him free of fee, provided that the interior of the bar is wholly visible from the doorway and that the entrance to it is either through the main door of the shop or through a separate door clearly labelled, or provided with a proper sign-board to show its nature

5. A sign-board must be affixed to the front of each depot or shop showing the nature and number of the license under which sales are conducted there, the name of the licensee and (except in the case of foreign liquor) the current rate of sale. These particulars must be legibly painted in the local vernacular and, in the case of taverns and wholesale depots, in English also. The license must be hung up in a conspicuous place within

6. All liquor, opium and intoxicating drugs sold or kept for sale shall be of good quality and unadulterated. Nothing shall be added to opium and intoxicating drugs either to increase their intoxicating power or for any other purpose except the manufacture of intoxicating drugs in accordance with the terms of a license. Nothing shall be added to liquor except in compounding, blending or reducing in accordance with the terms of a license. Nor shall different kinds of liquors be mixed and sold under the designation of one of them. All officers authorized to inspect depots and shops (*vide* condition 25 *infra*) are authorized to detain any liquor, opium or intoxicating drugs found unfit for consumption or use, or which they may believe to have been tampered with in any way, and all Collectors and Deputy and Assistant Commissioners of the Salt, Abkári and Customs Department are empowered to confiscate or destroy any liquor, opium, or intoxicating drugs unfit for consumption or use or which have been tampered with, and all liquor to which liquor of another description has been added and which is being offered for sale under the name of one of the liquors so mixed

7. The sale or transport of liquor, opium or intoxicating drugs by persons below the age of 14 or by persons suffering from leprosy or any contagious disease and the employment of such persons in shops or depots for the sale of the same are prohibited. The Divisional Officer may, where necessary, call for the names of all persons employed or proposed to be employed in depots or shops and forbid the sale of liquor, opium or intoxicating drugs by any person of whom he may disapprove.

8. No depot or shop shall be opened before sunrise or kept open after 9 P.M. except under special authority. In Madras sales after 9 P.M. will be allowed only in special cases under separate licenses and on payment of such fees as may be prescribed by the Collector.

9. No drunkenness, disorder or gaming shall be permitted in depots or shops. Entertainments of any kind in depots or shops are also strictly forbidden.

10. No robbers or thieves or disorderly or riotous persons shall be harboured in depots and shops. Intimation of their resort thereto shall be given to the nearest Magistrate or Police officer.

11. No person shall be harboured in any depot or shop during the night.

12. Depots and shops situated on or adjacent to the line of march must be closed, if the Collector so orders, while a regiment or detachment of European or native soldiers is passing or is encamped in the vicinity. Collectors or Divisional Officers shall have power also to close any shops temporarily in times of religious excitement or disturbance. Every depot and shopkeeper shall on his own motion close his depot or shop when there is riot or disturbance in the neighbourhood.

13. The Collectors may order the transfer of depots and shops from one locality to another or their closure or the opening of new depots and shops within limits as to number to be fixed by the Board of Revenue in their discretion. But no new shops should be opened unless notice of the sites selected has been published in the District Gazette six months before the commencement of the lease and no such changes as affect the interests of adjacent shopkeepers shall be made during the currency of a lease except under special sanction of the Board. Tahsildars may at any time permit the transfer of a shop within the limits notified for the shop in the sale notice.

14. The right is reserved to the Collector to grant "Occasional Licenses" for the sale of liquor, opium and intoxicating drugs, on the occurrence of fairs, festivals, etc., only in places in the vicinity of which there are no regularly licensed shops. This power in regard to country spirits and toddy may also be exercised by Divisional Officers. Such licenses should be issued only when absolutely necessary and shall ordinarily be granted to the shopkeepers who usually supply the locality or to the representatives of the renter. The licenses shall run only as long as they are actually required not exceeding ten days. Not more than one license shall be issued for a fair or festival without the sanction of the Board. The fees to be paid for the licenses shall be fixed at the discretion of the officers issuing them.

15. No liquor, opium or intoxicating drug shall be sold or given :—

(a) Except at shops specially approved by the General Officer Commanding the Division (or Independent Brigade) or the Officer Commanding the Cantonment or Camp, and then only in respect to such liquors as shall be approved by the same authority in consultation with the local Excise authorities and specified in the licenses—

(1) to sailors of the Royal Navy, soldiers and the members of their families, or

(2) to any other person living in barracks;

(b) (1) to persons whom a vendor knows, or has reason to believe, to be camp followers, *i.e.*, all classes of followers (other than private servants) whether on or off duty, who have a right to be in cantonments;

(2) to Policemen, Excise officers and Railway servants when on duty; or,

(c) in any circumstances, to any—

(1) European vagrant under escort of the Police;

(2) child under fourteen years of age;

(3) insane person; or

(4) person known or believed to be intoxicated.

Note.—The restrictions in (a) and (b) do not apply to Native soldiers, their families and followers when they are absent on leave from their regiments

16. No privilege of supply or vend shall be sold, transferred or sub-rented without the Collector's previous permission. Nor, if the Collector so orders, shall any agent be appointed for the management of any such privilege without his previous approval.

17. No holder of any abkári or opium license will be allowed, without special permission from the Collector, to possess any interest in any abkári or opium license in any Native State or foreign territory or in any British territory where a low rate of duty is in force and which is adjacent to the district in which he holds his license.

18. Depots and shops must be kept open unless their temporary or permanent closure is authorized under condition 12 or 13 *supra* and such supply of liquor, opium or intoxicating drugs as the Collector may consider sufficient to meet local requirements must be maintained therein. Shops not opened by dates to be fixed by the Collector shall be liable to be resold at the risk of the licensees.

19. No liquor, opium or intoxicating drug shall be sold in shops except for cash. The licensee shall be bound to give intimation of the offer of anything other than cash to the nearest Magistrate or Police officer. This condition is not, however, meant to restrict credit sales in the ordinary course of business by shopkeepers or firms of standing and respectability dealing in foreign liquor for consumption off the premises.

20. No liquor, opium or intoxicating drug shall be sold either below or above such minimum * or maximum † prices as may be fixed for sale of the same in accordance with the law for the time being in force.

21. No liquor, opium or intoxicating drug in excess of the quantity prescribed ‡ for possession without a license shall be permitted to be removed by any person at any one time from any licensed premises without a valid permit; nor shall liquor or intoxicating drug be sold at wholesale depots in quantities less than the minima prescribed.

22. True accounts of transactions shall be maintained from day to day in ink in the prescribed form. § The accounts and permits shall be in printed books. The account books may be obtained from local Revenue officers on payment of cost price. The permit books can be obtained at all Circle offices on production of receipts for the payment of the cost price into a Government Treasury. Permits for liquor, opium or intoxicating drugs received and the counterfoils of permits issued must be carefully filed. The signing of blank permits for subsequent issue is prohibited. The accounts and counterfoils of permits shall be preserved for one year after the period covered by the license and shall be produced when called for by an officer not below the rank of Assistant Inspector of the Salt, Abkári and Customs Department.

23. Such returns and information as may be required by the Divisional Officer from time to time shall be furnished by holders of licenses.

24. Only such weights and measures as may from time to time be prescribed by the Commissioner of Salt, Abkári and Separate Revenue shall be possessed or used on any licensed premises, and they shall be tested and stamped by the stamping establishment of the district if the Collector shall so direct. The possession or use of weights or measures that are incorrect on any licensed premises will render the licensee liable to punishment.

25. The officers authorized to inspect licensed shops and depots are—

(1) any officer of the Revenue Department of rank not lower than Revenue Inspector, and

(2) any officer of the Salt, Abkári and Customs Department of rank not lower than Sub-Inspector.

These officers are empowered to enter and examine the premises, to test weights and measures in use and the liquor, opium and intoxicating drugs in the possession of the licensees, and to call for and check the accounts kept in the shop or depot. Police officers will also make inspections when it comes within the scope of their duty.

26. An inspection note-book, with the pages numbered consecutively, for inspecting officers to enter their remarks in, shall be maintained, and be handed over to the Inspector of the circle or any officer authorized by him to receive it on a receipt being given therefor.

27. The amount for which the privilege has been purchased shall be payable in twelve equal monthly instalments into a Government Treasury on or before the 10th ‖ of each month beginning with April or October as the case may be. Fees for depots should be prepaid.

‖ Shops are liable to be re-sold for failure to pay kists only after the 25th in Madras Town and 20th elsewhere. In the meantime, interest will be levied.

*28. No remission or abatement of the rent shall be claimable on any account whatever.

29. Any sum due by a licensee may be collected * under the Revenue Recovery Act or adjusted from the deposit, if any, made by him at the commencement of the lease. He shall be bound to replace any sum adjusted from his deposit within fifteen days of receipt of notice from the Tahsildar †

30. Power is further reserved to Revenue officers to suspend * licenses in case of failure of payment of kists or (in the case of toddy) tree-tax also on the due dates. In the case of arrack, toddy, ganja and bhang shops and taverns, this power will be exercised by Tahsildars †; in the case of opium shops by Divisional Officers and in other cases by the Collectors.

31. In the event of suspension of a license for failure to pay arrears, the privilege of sale will be re-sold with effect from the date of issue of licenses to the new purchaser or otherwise disposed of at the Collector's discretion. All losses on account of suspension and re-sale or other disposal of the privilege shall be borne by the defaulting licensee, but he shall have no right to gain, if any, which accrues. The whole of the deposit, if any, made at the commencement of the lease will be liable to forfeiture. The officer who has power to suspend the license may, however, at his discretion, allow sales to continue pending re-sale or other disposal of the privilege.

32. Interest on all moneys due shall be payable at the rate of 6 per cent. per annum.

33. Infraction of any of the conditions of the license either by a licensee or by any person in his employment will entail on the licensee—

Either (a) fine up to Rs. 50,

or (b) forfeiture of deposits, if any, and cancellation of license and re-sale or other disposal of the privilege at the risk of the licensee.

The licensee or his agent may also be prosecuted for the specific offence committed.

The rent for the whole lease shall become due at once, when a lease is cancelled under this condition.

Note.—For continuing breaches of a license, continuing fines may be imposed.

34. Any license may be forfeited and the privilege be re-sold or otherwise disposed of at the risk of the licensee if the licensee be convicted before a Magistrate of any offence against the $\frac{\text{Abkari}}{\text{Opium}}$ Act, or of any offence under the Indian Penal Code, which in the Collector's opinion renders him unfit to hold it. The purchaser of a privilege is liable to the penalties prescribed in this condition if he is convicted of any such offence as above contemplated after the confirmation of the sale of the privilege to him though before issue of a formal license. Forfeiture of any license under this clause shall involve forfeiture of the balance of all deposits after payment to Government of all sums due under the lease.

35. Licensees are bound to report to the Divisional Officer all instances which come to their knowledge of persons employed by them in the manufacture, carriage or sale of liquor, opium and intoxicating drugs, committing breaches of the $\frac{\text{Abkari}}{\text{Opium}}$ laws or of engagements entered into by them and to comply with the Divisional Officer's orders respecting the continued employment of such persons. No persons who have been convicted under the Indian Penal Code shall be employed in the carriage or sale of liquor, opium and intoxicating drugs without the Collector's previous permission.

36. Pecuniary dealings by licensees of any kind whatever with officials of the Salt, Abkari and Customs Department are absolutely prohibited.

37. With the sanction of the Board of Revenue, any license shall be revocable by the Collector at his discretion on giving the licensee fifteen days' notice of such revocation, in which case a proportionate part of the fee paid will be refunded.

38. All licensees shall be bound by any additional general rules that may be prescribed under the $\frac{\text{Abkari}}{\text{Opium}}$ laws and, if so required by the Collector or any officer authorised by him, to deliver up their licenses for amendment or for the issue of fresh ones.

Conditions applicable to Toddy Licenses.

1. The privilege conferred extends only to the sale of toddy.

2. Toddy required for sale should be drawn under separate tree-tapping licenses to be obtained under the tree-tax rules from toddy trees in the tract in which the shop is situated or in any other tract in which the rates of tree-tax are not lower, subject to the discretion of the officer granting transport permits.

10. The licensee shall be responsible to Government for all payments of instalments of fees due on account of tree-tapping licenses granted on his application in his own name or in the names of his nominees under the conditions set forth therein and in the rules relating thereto.

11. The distillation of spirits from toddy is absolutely prohibited.

12. Permits for the transport of toddy from shops to stills will be granted, at the discretion of the officer concerned, in the Cochin taluk of Malabar.

13. No sweet toddy, even if it be the produce of marked trees on which tree-tax has been paid, shall be kept or sold in the shop, nor shall any sweet toddy be mixed or allowed to be mixed with fermented toddy drawn from trees marked for the shop either in the shop or outside it.

14. (*a*) In the Guntur district, excluding the toddy shops in the Palnad, Vinukonda and Ongole taluks, and those in the other taluks in the case of which the Collector may allow a modification of the rule, the area of each toddy shop, whether urban or rural, will be restricted to 50 square yards.

(*b*) Each town shop in the Godavari and Kistna districts and also each shop in the Kistna district the consumption at which exceeds 20,000 gallons a year shall consist of a single building or shed, with not more than three compartments; and all other shops in the two districts shall, except for special reasons to be approved by the Collectors in each case, consist only of a single room or shed.
